GLADIOLUS

IRIS and PEONIES

BULBS, PLANTS and FLOWERS IN SEASON

PHILIP BRIDE

231 Ridge St.

Glens Falls, N. Y.

Phone 2931

GLADIOLUS have become by far the most popular of summer flowers. Their many beautiful colors and long-keeping qualities make them desirable both for a show in the garden and for bouquets. At present about 7,000 named varieties are on the market, priced from \$100.00 down to 5 cents per bulb, and much less in mixtures. A great many varieties that were introduced at high prices can now be had from five to fifteen cents.

Visit our gardens at blooming time and make your selections.

IRIS AND PEONIES IN JUNE

GLADIOLUS, JULY 15th TO FROST

You can select your favorites while in bloom. Our bulbs are large first size bulbs, and prices are reasonable. Smaller sized bulbs cost less; if small or medium bulbs are wanted, write us. Our bulbs are true to name and if you find any that are not we replace them free.

Plant named varieties and know your Glads by name. Add a few new faces to your garden each year to make the work more interesting.

Plant in well-drained soil, five or six inches deep in light soil and about four inches in heavy soil; at least two inches apart. Can be planted in double rows by digging a trench seven or eight inches wide and setting the bulbs on each side, flat end down. A good commercial fertilizer can be sprinkled on top after covering bulbs; then keep the weeds out and you will have nice Glads.
